Clemson College, S. C., Wednesday, September 18, 1929

EXCELLENT MATERIAL OUT FOR FOOTBALL; OVER SIX TONS OF MEN ON CLEMSON'S SQUAD

Fat Wall, Heaviest, Tips Scales at 272. Speth, lightest Weighing Only 138

Never before has so much excellent material been on hand as the football host that reported for practice two weeks ago. From all parts of the state they came to rally around the standard of their Alma Mater, and to begin strenuous preparations under the able tutelage of Coach Cody for the coming games.

Not only is the squad strong in numbers, but it also possesses those qualities that enables Josh Cody to smile often these sultry days. Very rarely do coaches succeed in getting speed, brain, experience, and brawn in one squad. Yet that is exactly what Coach Cody has on hand—and in large quantities. A glance at the list below and a little addition will give one an idea of the strength of Clemson's Tigers. Truly, "thar's gold in them thar hills"—and plenty! The entire squad weighs more than 6 tons—12,002 pounds!!—Averaging 172 pounds. Below is a list of the Tiger squad.

(Continued on page Five)

GREENVILLE ROAD TO BE OPENED FOR GAME

One of the most interesting developments in the football situation here concerns the highways leading into Clemson. In the past, visitors have been forced to brave miles of dust to attend a football game played here. Director of athletics, James G. Gee, has received a letter from state highway department officials stating that the new paved highway from Greenville will be opened on Thursday, September 19th. At that time, a continuous ribbon of pavement and surface treated road will stretch from Clemson to Washington. For the benefit of football followers down state Highway No. 24 provides a route from Columbia which is paved throughout except for a short stretch between Honea Path and Greenwood.

FACULTY RECEPTION TO BE WEDNESDAY

There will be a reception for the new members of the Clemson faculty at the Y. M. C. A. auditorium, on Wednesday night, September 18, from 8 to 10. Dr. and Mrs. Sikes with all the new members of the faculty will form the receiving line. The purpose of this reception is to introduce the new members of the faculty to the old members of the faculty and to the members of the community in general. All the people of the community have been invited and an old-fashioned social evening is planned. Delicious refreshments will be served during the course of the evening.

\$1.50 sends that girl back home The Tiger.

MANY IMPROVEMENTS MADE DURING SUMMER

College Officials did not "loaf" in summer

While the cadets were enjoying a pleasant vacation this summer from the sometimes irksome routine of school life, a number of changes and improvements were being made here at the college which will be of great benefit to the corps by making the Clemson campus and the barracks a more cheerful and comfortable place to spend nine months of each year.

The first thing to strike the eye of the returning "Old Boy" was the absence of the old wooden gangplanks. The timbers were removed and reinforced concrete slabs now lead from walks to barracks, and from barracks to barracks. No more will the old familiar rattle of the boards be heard as the corps, at the last minute, hustles across to meet the reveille formations, or wearily plods in over them after the "scheduled" drills. And no more need the "beat-out" tiptoe across them after taps for fear of drawing the attention of the ever-vigilant Sergeant of the Guard.

Next the tiled walls of the mess hall would be noticed and commented upon. This tiling is of a mottled green color, extending the length and breadth of the hall to a height of about five feet. In contrast with the white walls and red floor, it creates a most pleasing effect.

The boys living in the third barracks are especially satisfied with the improvements made there. The walls have been freshly calcimined, the woodwork repainted, and each room refloored, all of which makes it bright and cheerful, and gives a more homelike atmosphere to the rooms and halls. And then down at the Chemistry Building, several of the old store rooms in the basement have been ceiled, wired, and generally remodelled in order to make more classroom space for the increasing student body.

The cadets who visit the engineering building, and especially those who have classes there are interested in the work which is still under way in the courtyard between the South wings of that building. A walk is being laid around the fountain there which is to be composed of numbers of sections of different paving materials. The areas left by this walk are soon to be planted in shrubbery and grass. When completed, this spot will offer the horticultural grounds keen competition in attracting the cadet with his girl to the most romantic places.

Also much work has been done on the grounds of the historical old Calhoun Mansion. Walks and roads have been built, and the old well house remodelled in an effort to reestablish the place in the same style as of yore. Then, in the bank just east of the power house, a twelve by twelve concrete room has been built in which will be the terminus of all the pipe lines distributing steam to the various college buildings.

OFFICERS FOR THIS YEAR ANNOUNCED

Cadet Commissioned Officers Announced at Camp

The lists of appointments of all Captains and Lieutenants was read at a banquet held at the Alabama hotel in Anniston, Ala. on the evening of July 10, 1929. This banquet was attended by all Clemson men in training at Fort McClellan, Col. Munson and other officers attached to the commandant's office at Clemson, as well as other officers who were invited from the camp.

Captains Johnson and Balcar who were leaving Clemson for other army posts were given small gifts by the cadets who were in camp as a token of esteem and appreciation of untiring efforts with the Clemson corps.

The lists of appointments is published here for the information of alumni and the corps of cadets. The Cadet Colonel, Lieut. Colonel, and the three Majors having been previously announced at the closing of school in June, they will not be included in the list.

CAPTAINS

McLeod, W. H. (S-1); Craig, W. D. (S-2); Ware, M. D. (S-3); Asbill, H. W. (S-4); Earle, S. B. (Chaplain); Hodges, R. G. (Band); Rodgers, J. B. (D&BC); Prim, J. M.; Smith, R. N.; Robertson, E. H.; Clement, W. P. Hewitt, B. L.; Barnes, V. M. Geddings, M. T.; Josey, F. H.; Wannamaker, T. R.; Parham, H. C.; Schumacher, P. D.; Smyth, T. L.

CLEMSON OPENS WITH LARGE ENROLLMENT; OVER 1200 STUDENTS HAVE REPORTED

SIXTEEN NEW PROFS ON FACULTY LIST

Departments Add to Staff

With the opening of all college classes, announcements have been made of the appointment of sixteen new members of the faculty. Most of these are filling vacancies caused by resignations, transfers, and leaves of absence. The list of new teachers, the degrees which they hold, and their teaching experience, follows:

A. T. O'Banion, or Austin, Texas, Professor of Electrical Engineering; B. S. and E. E. University of Texas, E. E. and M. E. Cornell University; Instructor in Electrical Engineering at Texas and Cornell.
D. D. Curtis, or Greene, Iowa, Professor of Mathematics; B. E. University of Iowa, graduate work, University of Washington; Assistant Professor of Mathematics, University of Iowa for seven years.
J. J. Mahoney, of Seeleyville, Indiana, Associate Professor of Physics; A. B. Indiana Teachers College, M. A. and Ph. D. University of California; taught last year City College of Asheville.
W. E. Shinn, of Concord, N. C.

(Continued on page Six)

FRESHMAN DANCE WELL ATTENDED

Both Old and New Students Have Good Time at Opening Hop

The "Rat" dance was a great success as the opening hop of the year. The Jungaleers waxed hot from the very beginning and kept the sons and daughters of St. Vitus busy until two o'clock. Many fair visitors were present to display a great variety of pretty costumes.

The hall was beautiful. Around the walls were great numbers of young pines which made the floor look like a clearing in a dense forest. Many palms and evergreens completed the decorations.

More "old boys" attended the dance than freshmen. It looked like a reception to see so many people shaking hands. Friends who had not seen each other all summer met again that night. "It's good to be back", was the main thought of every one.

The ladies of the Clemson D. A. R. Chapter were the sponsors of the dance and are to be congratulated on the success of the affair.

F. S.; Sackman, G. W.; Stephens, W. A.; Wickliffe, B. I.; Osteen, P. C.

NOTICE!

Copies of this issue are being widely distributed among the faculty, alumni, and others, but in the future The Tiger will be sent only to those who have paid their subscription. The student, of course pays for his Tiger in the activity fee.

The cost of The Tiger for the entire school year is \$1.50. If you want The Tiger, and do not want to miss a single copy, send in your subscription promptly. Subscriptions should be mailed to A. R. Ramseur, Business Manager, P. O. Box 147, Clemson College, S. C.

New System of Registration Installed with Many New Courses

Clemson's doors are opened again, and the year 1929-30, which promises to be the most successful in her history, lies directly ahead. The enrollment for this session has already exceeded 1200, and many students who have made their initial deposit are expected to report within a short time. This number is greater than the enrollment at the beginning of any preceding year, and many applications were turned down because of the lack of rooms to accommodate the applicants.

The present freshman class includes many boys from other states and one from another continent. This within itself proves that Clemson is not only known throughout the state and the South, but is establishing a reputation which extends over the entire country. Each year a greater number of boys from without the state are coming to Clemson for their education.

At the request of the class advisors last spring a change of class registration was inaugurated this session. The objects of this change are: To permit the student to assume more responsibility for his class work, to give a larger opportunity for securing advice and assistance from the faculty as a whole and to economize in the use of time in arranging schedules for class work. This system seems to be more popular among the students than the old system.

Several new courses have been added this semester. Among these are courses in Religion. They are taught by Messrs. Crouch, Goode, Hodges and Satterlee, pastors of the local churches. Problems relating to this work may be discussed with Mr. Crouch, who is acting as head of this department. In addition to these are several new courses in physical education, offered by Mr. Gee, and Mr. Cody, and enrollment has already exceeded the expectation for this semester. It is interesting to note that Thomas G. Clemson inserted in his will this statement: "----it (the college) should combine, if practicable, physical with intellectual education----". These

EDITORIAL

The Tiger is glad to welcome to the college for the session of 1929-30 both old and new students. In our opinion this is a fine place to be, none that we know seems finer. We congratulate all the men who have the privilege of enjoying its advantages.

As we look forward to another session, among other hopes we cherish that we have come here, all of us, for the purpose of making this year in every way worthy of the best traditions of this institution,—traditions of excellent scholarship, of fairness in sport, and of correct military deportment. The record of each succeeding year ought to be better than any that has gone before; so we are hoping that this year will be the best in the history of the college.

The Tiger takes the liberty of urging that each student shall cherish high ideals in conduct and in scholastic work. In other words we are asking that the Tiger spirit shall be illustrated in all phases of college life. That spirit is the unafraid, conquering spirit. But dauntlessness is not all of the spirit we boast. Students of former years have not only exhibited high courage but also the spirit of fairness and of fine courtesy, and our heritage lays upon us the obligation to hold fast to such traditions.

All of us are going to be greatly interested in our athletic record this year. Members of the student body not participating in any of these are going to expect and demand great things of those who represent the college on any of our teams. Let us not forget that the work, spirit and achievements of our athletes are going to reflect the spirit of the corps. The morale of our athletes can not rise any higher than the morale of the student body as a whole. We are going to make, or unmake, our foot ball team and all our other teams, not simply by giving or withholding moral support, but by fixing the level of their accomplishments by the general level of student aim and purpose. The spirit of our athletes will be the spirit of the student body, and their record is going closely to approximate the general record set by the rest of us. Just one thing is expected of every Clemson student,—that he shall be a man in all the phrase implies. To be that is to be worthy to wear the Tiger name. To fail to try to be that will be to make yourself unwelcome at Clemson.

JUNIOR PLATOON STARTS GOOD WORK

Colonel Farr Getting Platoon in Shape

Warned by the experience of last year's platoon, the present Junior class is starting early to mold a

group that will go to camp next summer with the sole purpose of obtaining revenge for last year's defeat. Clemson lost last year by a very small margin, and by beginning early this time that extra bit of snap and confidence is being gained that will smother the Citadel.

The first drill was held Friday night, about seventeen squads turn-

out to go through a few movements under the supervision of Cadet Colonel Farr, the able commander of last year's platoon. Another drill was called Saturday morning and Colonel Munson, who was present, commented on the excellent spirit and showing of the men.

The first exhibition will be given at the Newberry game during the half. It is not expected that the platoon will be perfect by that time, for many hours of hard work will be needed to get the men working as a flawless machine.

Although there can be but four squads drilling in the competition at camp next year it is planned to drill six full squads so that plenty of reserve men will be ready to fill in the vacant files left by those on K. P. and guard duty. Only a temporary platoon will be picked after Saturday's drill and there is a chance for everyone to participate even if he is not chosen for the first exhibition. Many stopped coming out last year because they thought a definite organization was picked early in the spring, but there is always a place even in last drill.

Many men have to be weeded out and others must fill their places. If the fine spirit and interest is kept up as already shown and if many turn out for every drill some of those not picked at first will probably be selected later. It takes time to find the best men and only those who developed ability can expect to be chosen.

Colonel Munson has promised to give the platoon two of the regular drill hours each week so that it can practise as a single unit. They will drill at the following games. Newberry, Citadel, Auburn, and Furman. It will be seen in exhibition at the State Fair in Columbia this Fall.

Farr will remain in command until after the end of the football season, and by that time the platoon will be well organized and a permanent leader can be chosen. All those who have displayed an

additional ability will be given an opportunity to try out for commander and the final choice will be made by popular vote of the men.

A well organized unit, going through a snappy drill will be a fine advertisement for the college. It will show the people what Clemson can do for a man, and it will also give the cadets a chance to show others their military ability. It will give each student a chance to show what he is made of, and will bring out some hidden qualities heretofore covered that may be rewarded by commissions.

CLEMSON OPENS WITH LARGE ENROLLMENT

(Continued from page One)

new courses are simply another step in carrying out the ideals expressed by the founder of Clemson and accepted by the State of South Carolina.

In order to handle the problems of students more promptly the College has employed Mr. G. E. Metz as an assistant in the Registrars office. Mr. Metz is well qualified to assist students, having graduated at Clemson in 1927, and had two years of graduate work at the University of North Carolina.

VESPER SERVICE

The second service for the Freshmen and the first for the old boys was held in the auditorium of the Y Sunday night. Professor Martin, head of the Mathematics department here, was the speaker for the evening. The main thought brought out in Major Martin's talk was that we should not be ashamed of the religion which we have been taught by our parents but that we should strive as best we can to continue abiding by the rules which govern our home-taught religion.

CABINET MEMBERS GATHER

After the Tiger Cabinet members had been back to their jungle long enough to occustom themselves to their new environment, and one which they will have for the next nine months, they met down in the cabinet room of the Y to discuss the experiences which they had during the past summer. One of the boys said that he went fishing and by some kind of luck caught a fish on his line when the hook was not even baited. Another stated that the first Tarpoon that has been caught from Beaufort shores was caught while he was in the vicinity. The fish weighed seventy-five pounds and covered the entire side fender of a new 'Henry'.

The relating of these experiences was followed by a discussion by each member of the things which he and his committee are going to try to do during this coming year.

After this and a few other business matters had been taken up, Mr. Holtzendorff informed the boys that a little ice cream and crackers would be served to those who had no work to do and could stay.

ANNUAL FINANCIAL CAMPAIGN FOR THE Y. M. C. A. FOR STATE, NATIONAL, FOREIGN AND TRAINING COLLEGE

Clemson's Allotment for all Causes	
-----	\$1200.00
State work of the Y.M.C.A.	200.00
For'n work of the Y.M.C.A.	400.00
Home depart. work of "Y"	350.00
Training agencies	300.00

TOTAL ----- \$1200.00
Each student is asked to give \$1 as a minimum goal. Some may be in a position to give more while some may be unable to give as much.

This goal was set for us by the National Council. It was accepted by the Clemson Y.M.C.A. Governing Board and for the past two years we have succeeded in raising this amount.

Men will be by your room to see you. Each man is urged to give \$1 toward this work.

We all know something of the State Y. M. C. A. and our brothers any many of us have known of the work and know Mr. Lanham, especially boys of the Hi-Y Groups Mr. Lanham has been a great help to us at Clemson and we are anxious to show our appreciation by helping him in his work.

The foreign Department of the Y. M. C. A. is conducted so as to bring the influences of the Y. M. C. A. into many foreign boys' lives. As soon as a city is able to support its own work it is turned over to the local people. Many strong associations are operating in numerous foreign lands with local leadership. The Young Men's Christian Association is able to reach many young men who would not be reached by the Church and these men are rapidly becoming the strong leadership

of the Church in Foreign lands.

The Home Department of the Y. M. C. A. is necessary for strength in so great an organization, and this department renders much help to the local Association. The Blue Ridge Conference alone is worth the amount most Associations raise for the Home Department and there are many other valuable pieces of work done by the Home Department. Dr. W. D. Weatherford and other speakers are available through this Department.

The Southern Y. M. C. A. Graduate School has rendered great help to the Movement of the Y. M. C. A. in the South and nearly every college in the South has felt the influence of this institution by reason of the training of the Y. M. C. A. Secretaries and Presidents. Some of the strongest men in the student department of the Y. M. C. A. in the South are men who have been trained in the Y college and many of us have had a most helpful influence by reason of training secured there. Theo, Cooper, Clayton, Hudgens, Carpenter, Holtzy all received training here.

None of the 1200 dollars is for the local work of the Y. M. C. A. at Clemson. The cadets are not asked to contribute to this as each man makes a contribution through the activity fee and is entitled to the use of the building, swimming pool, and to numerous picture shows that will be run free from time to time during the year. In addition numerous other entertainments are furnished from the contributions of the members of the faculty and from the activity fee of the students.

HAVE A SHARE—THURSDAY NIGHT IS THE TIME!

SOPHOMORE COUNCIL HOLDS FIRST MEETING OF YEAR

After a most enjoyable vacation, the Sophomore council met for its first regular meeting Thurs. evening at seven o'clock in the club room of the Y.

The real spirit of comradeship was once again stirred to its highest degree when the council members grasped the hands of their friends once again. But this meeting was one that will not be forgotten for quite a while.

Practically every member was present; also Mr. Holtzendorff and Mr. Vaughan were there. With so many members present a great deal of work was accomplished.

The meeting was opened by the President, who read a portion of the scripture. The first business that came before the council was finding a method of conduction the programs for the council during the year. This was decided by the council at large. The president then appointed a program committee for the year. It was composed of W. W. Fridy, C. P. Hograth, and J. K. Durst, who was chairman. It was also decided that the council would visit the various homes of the campus, and at times conduct meetings at the homes that could accomodate the entire council.

The financial program for the Y. M. C. A. of the year was discussed in detail, and a maximum goal was set for the student body to attribute. After so much discussion, the council was served ice cream.

A retreat of the Sophomore council will be held at Blue Ridge, N. C. October 19. In the midst of the Blue Ridge mountains, the most beautiful part of North Carolina, the council will endeavor to discuss its work for the year. Undoubtedly this retreat will be a success because

PROSPECTS BRIGHT FOR CUB TEAM THIS YEAR

High School Stars Galore

The cleated shoes of eighty-odd bald-headed newboys have been tearing up the turf on Bowman field for the last few days in an effort to out-do each other in the noble arts of tackling, kicking, passing, etc. Each lad seems determined that he will make the team regardless of stubborn opposition. None of them are loafing on the job; all are willing to work just as long and hard as the coaches want to drill them. Coach Gee, himself thinks they are the most willing bunch of youngsters he has ever worked with.

Practically every high school team in the state is represented on the squad, and a large number of last year's stars are in evidence. The team will be some lighter than that of last year, but will probably have more speed and stamina.

The backfield material is especially promising, with two triple-threat men in action—Dick Voight of Charleston and Bob Miller of Hillsborough, Florida. Then there is Charlie Morse of Spartanburg who is a passer de luxe. He tosses the pigskin from one end of the field to the other with as much ease as most boys throw a rock. Obed McMillan is another passer who should see some service this season. He must have inherited his passing ability from his big brother, the illustrious "Goat". Arstron, Wilson, Peake, Browne, and Owens are other fine backs, and there are a number of others who show promise of land-in berths on the team.

In the line probably the most outstanding men are Proctor, an all-state tackle from Gaffney, and Linky Rivers who played end for Columbia last year. Bailey at center is also a valuable man, due to the fact that he can kick as well as snap the ball. Among the other promising linesmen are Nettles, Anthony, Williams, Gallman, Sinclair, Martin, Wilson, Sloan, and McPotts. McPotts is a brother of the famed "Dady" McPotts who was an all-southern tackle at Clemson when "Mutt" Gee played on the team.

With such an array of material as this, and with a coaching staff as Guyon, Gee, and Goodale, we see no reason why the rats shouldn't go through the season without a single defeat. Guyon is taking Carson's place on the "Rat" coaching staff this year, and Carson has been shifted to assist Cody with the Varsity. We figure this was done in order to bring the three "G's" together and the two "C's"—thus making the Rat staff G. G. G. and Co., and the varsity staff C. C. and Co. We may be wrong in this but we won't admit it.

In addition to the regular Freshman schedule in football, Coach Gee hopes to arrange a schedule of high school games for the Rat reserves to play. The team he will pick for these games will not average over 150 pounds per man. This is a new thing to be introduced at Clemson, and we think it is a mighty good idea. In this way every man on the squad will get a chance to play in some games.

The Freshman schedule for this season is as follows:
Sat., Oct. 5—Newberry at Clemson
Wed., Oct. 23—Carolina at Columbia
Fri., Nov. 8—Furman at Greenville
Sat., Nov. 16—Citadel at Clemson
Sat., Nov. 23—Fla. at Jacksonville

How does a man get a game leg?
 By getting into a game and having it pulled.

Falstaff—Prithee, fair maid, I ddfds't see thee out with that roistering young squire. I trust you were chaste.

Maid—Oh, yes sir, all around Robin Hood's barn.

Ed Dupree—They tell me a camel can go eight days without a drink. Al Yeargin—But who wants to be a camel?

Ringmaster—How many shirts can you get out of a yard?

Bobbie—That depends on whose yard I get into.

Grocer—Well, little girl, what can I do for you?

Little Girl—Mother sent me to get change for a dollar, and said to tell you she would give you the dollar tomorrow.

Say, waiter, this piece of fish isn't half so good as the one I had here last week.

That's strange, sir; it's off the same fish.

Gee Dorothy, I haven't got a cent with me.

Well, it doesn't matter. Everybody knows you here, don't they? Unfortunately they do.

She's her own chaperone.
 How's that?
 You ought to see her face.

My butler left me without any warning.

You got off easy. Mine left me without any spoons.

Dr. Pollard—What happens to gold when it is exposed to the air?
 Newboy (after long reflection)—It's stolen.

Officer—I don't know why the men grumble. This soup is really excellent.

Sergeant—They wouldn't grumble, sir, if the cook would admit it is soup. He insists that it is coffee.

What kind of leather makes the best shoes?

Don't know; but banana peelings make the best slippers.

Papa loved mama
 Mama loved men
 Mama's in the graveyard
 Papa's in the pen.

Pater—Who is making that infernal jangle on the piano?

Mater—That's Constance at her exercise.

Pater—Well, for Heaven's sake; tell her to get her exercise some other way.

Mr. Cole had been scolding his six-year-old daughter, who retorted: "Don't you think, papa, that just because you married mama you have a right to be rude to all women!"

Dr. Milford—Well, how did you find yourself this morning?

Cadet (in hospital)—Oh, I just opened my eyes and there I was!

Conductor—Tickets please. How many in this berth?

Male Voice—One conductor; here's our ticket.

Lipstick and flypaper, they are much alike; they catch the careless creatures that pause to investigate.

John—Do you know how to flirt?

Walter—Lord, no! I tried doing it and she married me.

One reason a girl looks better in profile is because you can't see that the bloom of youth is higher on one cheek than on the other.

Bessie—So Janet cheated in poker last night?

Anita—Yes, she wore two step-ins.

Lois—Where did Dr. Jones make all his money?

George—In the stork market.

Robert—Have you a heater in your car?

Arthur—You bet she is.

It's easy to tell one sex from the other. A man won't take your last cigarette.

Gene—Long hair makes a man look intelligent.

Ralph—I don't think so. My wife found one on my coat and I looked foolish.

The difference between petting now and 40 years ago is 40 miles per hour.

Hose: what a man uses to raise flowers and a woman to raise interest.

Polly—Don't hold my hand, I'm not that kind of a girl.

William—I know, but don't rush matters.

When the front door opens

Run boys run—

Her old man shouts

Like a son-of-a-Bun.

Worried Mother (as daughter opens the door at 3 A.M.)—Now where have you been at this hour?

Daughter (slightly wind-blown)—Oh, John got fresh and my parachute got caught on the north-bound mail plane.

COLLEGIATE

Two dazzling eyes
 With a baby stare
 Two ruby lips
 And shingled hair;
 Two dancing feet
 A soldier sway
 A rippling laugh
 A vamping way;
 A crowd of men
 A social whirl
 And there you have
 The college girl.

SENIOR DANCING CLUB ELECTS OFFICERS

O. D. Padgett is President for Coming Year

The senior Dancing Club held its first meeting on Monday evening Sept. 16 at which time the club officers were elected for the coming year.

O. D. Padgett was elected President; R. S. Howard, Vice-president and B. L. Hewitt Secretary and Treasurer.

Plans were discussed for the arrangement of the dance schedule for the coming year. This schedule will be arranged as soon as the other dancing clubs elect officers. The first dance will probably be given within the next month.

As soon as the schedule has been completed the Tiger will publish this schedule.

"Fat" Wall with his 272 pounds of avoirdupois tops this list of "weighties". Speth is the lightest man on the squad, tipping the beams at 138. However, what one lacks in weight, one makes up in speed. The opposite is true of the big boys--what they lack in continued speed is replaced by immovability when acted upon by so-called irresistible forces.

Any attempt to predict the regular team would be futile this early in the season, but from appearances one can judge to some extent which players are likely to see service during the coming months. Of course the "old grad" will make up most of the four leading teams. Gunnels, Kit Hayne, Johnny Justus, Bob McCarley, Bob Jones, C. Mc Millan, Dick Magill, O. D. Padgett, Solomon, Speth, Swofford, and Mule Yarborough. Showing up with brilliance are Pickelsimer, Wall, Seigle sowell, the famous Kinghorn twins, and Smith. Sowell is continuing his excellent play of last year with added vigor. This year he will be eligible.

MAIL SCHEDULE

For the convenience of the students and campus people we are publishing a mail schedule furnished us through the courtesy of Mr. Goodman, the Postmaster.

The hour given for the outgoing mail is the hour the mails close for dispatch, and not the hour of the train departure. The mail has to be closed from half to three-quart-

and the spirit displayed was the best seen here in many years. The band was present in full force and helped to make the meeting a distinct success.

Coach Gee gave the students an inspiring talk and urged the student body to stand behind the team to a man whether the team was losing or winning, reminding them that the spirit of the corps was ever reflected in the fight of the team on the field. He named several instances where just such spirit had been the cause of weaker schools overcoming almost unsurmountable obstacles. Gee also paid a flowing tribute to Cadet Colonel Farr who is also head cheer leader, and he was enthusiastically applauded, attesting to the popularity of Farr.

"Catfish" Evans was elected by popular vote from a number of candidates for cheer leader to fill the vacancy left by one who did not return to college this fall.

Many songs were practiced and the yells went over in mid-season

form. It is expected that another pep-meeting will be held again this week before the lid comes off in the first game next Saturday. The pep-meeting was closed with the Alma Mater sung by twelve hundred

voices in a manner that brought warmth to the heart and tears of gladness to the eyes.

Choose a
Parker Duofold*

—the college favorite by actual census

** Guaranteed Forever Against All Defects*

Parker Duofold Pens
\$5 to \$10
Pencils to match
the pens,
\$3 to \$5

Here's Winfield Killam, University of Texas, all set for a hop between classes. His extra hours for flying come from doing his school work quickly and easily via Parker Duofold.

Elliott Coleman, Louisiana State University, feels fortified against adverse flying conditions when in his Command-aire plane. Likewise, he feels fortified against the stiffest exams when he grasps his trusty Parker Duofold Pen.

Here are Bill Banker, Tulane's All-American "Blond Blizzard," and Ike Sexwell, former captain of University of Texas' football team—all set for a hop in a Command-air plane. When it comes to speedy writing, both are Parker Duofellows.

*To prove Parker Duofold is a pen of lifelong perfection, we offer to make good any defect, provided complete pen is sent by the owner direct to the factory with 10c for return postage and insurance.

Christened "Parker Duofold" by Amelia Earhart, the first trans-Atlantic woman flyer, this 5-Passenger Fairchild Monoplane has, in the past 9 months, given flights to 6,200 Parker dealers and college students. This fall it will continue its tour among the colleges of America.

Now numbers of colleges have their flying clubs and landing fields—but the thing that students like best to pilot through their studies is the light-flying Parker Duofold Pen that leaps to its work like a dart and writes with Pressureless Touch.

Pressureless Touch is Geo. S. Parker's 47th Improvement, combining capillary attraction with gravity feed.

A census of pens in 13 technical schools disclosed that Parker leads in popularity 2 to 1. It was voted the favorite by students in 55 colleges. And a nation-wide poll conducted by the Library Bureau proved Parker the preference by 25% above the second pen, and 48% above the third.

Non-breakable barrels of jewel-like, colorful Permanite, smartly black-tipped—28% lighter than rubber—holding 24% more ink than average, size for size.

Step to any good pen counter and select your point. Imitations can't deceive you if you look for the imprint, "Geo. S. Parker — DUOFOLD."

SPORTS

TIGER LOOKS TO BIGGEST YEAR

SPORTS

THE FIRST OF THE SEASON

Saturday afternoon the lid pops off with the Yellow Peril of Clemson acting as hosts to Dutch McLean's Newberry Indians. The game starts promptly at 3 P. M. and will be over in time for the folks to file into Manley field for the first night football in the state of South Carolina, between Furman and Erskine.

Preseason dope from Coaches and noted Dixie Sportswriters give Cody's Tigers a clean slate for the 1929 campaign. It is true Clemson has her best in 20 years—So putting two and two together—No, we'll make no predictions—"Ye shall know them by their games"—We invite you all to the first encounter here Saturday afternoon.

PAVED HIGHWAYS NOW OPEN

And say, folks, you needn't stay away dreading the road, stands, etc., any longer. The paved highway from Anderson to Clemson has been opened for sometime—And the paved road from Greenville was opened on the 14th, so folks just crank up the old bus and skeddaddle right over to "Mutt" Gee's muscle ranch for a day's outing.

ATTENTION SPORTS WRITERS

AND REPORTERS

Newspaper men, you are most royally welcomed to the Tiger's lair this season. 'Mutt' has had a handsome new press box erected just for your use and comfort. It is glass enclosed and electric heated, and telephone and telegraph connections are being made. It is the only enclosed, equipped press box in the state. You can write to your heart's content without being hampered by the elements. Quoting Carl Welmer of the Greenville News: "It's going to take a hardboiled guy to pan the Tigers after an afternoon of such comfort as is afforded by the new press box." Congratulations "Mutt".

NEW FIELD HOUSE

NEAR COMPLETION

Then when you come over Saturday afternoon you'll be wondering what the new brick building is being constructed for. Well, folks, here's a hot tip—it's the new field house with a seating capacity of 5,000. All indoor sports will be held here. And again I remind you of the paved road. With two such conveniences fixed the spectators should come from far and near to the night events at Clemson.

THE GRIDIRON IS READY

But, boys, forgetting the other conveniences and the pavement, you should see the gridiron! It is a beauty. Not a cleat has touched the closely matted and beautiful green grass. The field seems to invite one just to lay and wallow in the grass, forgetting all worries. I chanced to hear Joe Guyon remark about the field last Saturday. He said that it would be a seventh heaven to miss a tackle and go sliding along in the grass on the field. So, folks, if you see any such sliding you'll know others are feeling like Joe—Savvy?

FRESHMAN TEAM

Joe's Fresh are still limbering up so we'll have to hear from the cubs at some later time. At present there are over a hundred Rats trampling over Bowman field like a bunch of colts. The first Fresh game is with Newberry, October 8th. So the youngsters have plenty of time yet Joe says he's learning them the fundamentals, so whatever that is, that is what the football squad is learning—See?

CONFERENCE SIDE LIGHTS

The Southern Conference does not open until Sept. 28 so Clemson is starting early this season—playing eleven games—from Sept. 21 to Nov. 28. Present dope favors Ga. Tech to repeat her performances of the past year—But we might say here that Tech is the only school

in the conference with a weaker team than last year—Every other team in the conference is stronger and some of them are sure to make their opponents step ere the finale is rung on the 1929 season.

For instance gaze on Florida's Crabtree, Bethea and others; gaze on Tennessee with her Sophomore team of last year, now Juniors with one year more of experience; tune in on Vandy with a team that "Smilin Dan" McGugin says will win all on her schedule, but boys don't over look the Clemson Tigers this time—No less authority than "Fuzzy" Woodruff, sports writer of the Atlanta Journal says that Clemson will win all games this season. Our own Josh, "We have a better team than last year and Florida's our toughest opponent". Well boys you're slated to hear some inside dope again.

TIGERS OPEN WITH NEWBERRY SATURDAY

Saturday is the big day. Josh Cody and his Clemson Tigers open the 1929 football season with a game with Coach Dutch McLean's Indians from Newberry College. From all indications and predictions this initial game ushers in one of the most successful seasons that the Clemson Tigers have ever been able to look forward to. The Cody-men are already in the proverbial pink of condition. However, the very hard schedule that has been formulated by Director Geo may prove too difficult for these indications and predictions.

This game with the Indians is the first of a series of eleven, six of which are with Southern Conference teams. Among the strongest Tiger Conference opponents are Florida, V. M. I., Kentucky, Carolina, N. C. State and Auburn. All but four of these games are on foreign soil. The excepted quartet are on the newly sodded Riggs Field.

There are many other new improvements to be noticed in the Tiger lair. Among the most noticeable of these improvements is the new and modern news reporters stand. Many sport scribes from over this and other states will be on hand Saturday to view and report this first game from this new box. Coach Gee's plans provide this press box with electric fans during hot weather and electric heaters during the winter months.

At present it is a difficult prob-

lem to determine just which one of the four teams the Clemson mentor intends to start in the game Saturday. However, one may be reasonably sure that many of these first forty-four men will have a chance to display their ability.

SIXTEEN NEW PROFS.

ON FACULTY LIST

(Continued from page One)

Associate Professor of Weaving; B. S. and M. S. N. C. State College; Instructor at N. C. State.

D. H. Shenk, of Kokomo, Indiana, Associate Professor of Mechanical Engineering; B. S. Purdue University; taught two years at Purdue.

D. C. Sheldon, of Chehalis, Washington, Associate Professor of Mathematics; B. S. Washington State College, M. A. and Ph. D. University of California; taught at Washington State and California.

C. A. Johnson, of El Campo, Texas, Associate Professor of Architecture, B. A. and B. S. Rice Institute; taught at Texas A. and M. College for two years.

S. W. Little, of Buffalo, N. Y., Assistant Professor of Architecture, B. Arch., Cornell University, graduate work at University of Pennsylvania and Ecole des Beaux Arts, Fontainebleau.

S. C. Gladden, of Oxford, Mississippi, Assistant Professor of Physics; A. B. University of Mississippi, M. S. University of Kentucky; taught at N. C. State College last year.

P. H. Kron, 1st Lieutenant U. S. Army, Assistant Professor of Military Science and Tactics.

F. T. Searcy, 1st Lieutenant U. S. Army, Assistant Professor of Military Science and Tactics. Graduate U. S. Military Academy.

W. E. Johnson, of Timbo, Arkansas, Assistant Professor of Agricultural Education; B. S. Mississippi A. and M. College; taught Manning High School and Southern Veterans Bureau Institute.

F. R. Smith, of Fredricktown, Pennsylvania, Instructor in Zoology and Entomology; B. A. University of Arkansas.

G. E. Metz, of Charleston, S. C., Assistant to Registrar and Instructor Arts and Science Department; B. S. Clemson College, M. A. University of

N. C.

F. W. zur Burg, of Asheville, N. C., Instructor in Chemistry; B. S. and M. S. University of N. C.; taught University of N. C., and Mississippi A. and M. College.

Andrew Murphy, of Columbia, S. C., Instructor in Chemistry; A. B. Erskine College, M. A. University of N. C.; taught Winnsboro High School and City College of Asheville.

MELTING POT

The Chief Stirrer of the Melting Pot arrives at the typewriter from

a hectic summer of camp, etc., without a single issue from our contemporaries.

It is hoped that those papers with whom we exchanged last year will find room for our name on their mailing lists again this year. During the past year The Tiger went out to the editors of fifty other college papers. We are glad to replace their names and will be glad to add any new exchanges.

\$1.50 sends that girl back home The Tiger.

WELCOME TIGERS

HOPE YOU ENJOYED THE SUMMER AND REMEMBER THAT HERE YOU CAN GET THOSE COLD DRINKS, ICE CREAM, STATIONERY, AND OTHER THINGS USEFUL TO THE COLLEGE MAN
